indicated to us after reviewing the case that he also thought there was an error in the Restriction Requirement in that claims 29 and 31 had been separated in to Group II from their dependent Group I claims and that dependent claims 34 and 35 have been separated into Group II from their independent claim 23 which is in Group I. The Examiner's supervisor indicated that we should do nothing until we receive a new Restriction Requirement and the Examiner confirmed that this is to be the case since he will issue a new Restriction Requirement shortly.

Therefore, this Interview Summary should be considered to be a timely response to the Restriction Requirement which cannot be responded to with an election due to the error. We await the new Restriction Requirement with the error corrected.

Respectfully submitted,
